

I am a pledge supporter of K-LOVE radio and am concerned about the idea that it would not be available in my area if it was replaced by an LPFM station that did not provide the same listening experience. Communities like mine are served by K-LOVE with clean, positive and encouraging music that my children can listen to and enjoy! We would probably have to go back to listening only to CDs if K-LOVE were off the air! My friends feel the same way, as I am sure many others in our community do to! The other thing I love about K-LOVE is that I feel connected to many across the US in that it is simulcast in so many cities. Living in the "live music capital of the world" (Austin, TX) provides us with an appreciation for all types of music, and I believe that without K-LOVE, we would be missing a very important part of our music choice! I don't know much about LPFM, but I do know that any rulings should not knock out an entire radio station that is currently in service to so many across the US!
